College athletics is a multi-billion dollar industry that generates massive revenue for universities, athletic conferences, and television networks. But behind the glitz and glamour, a darker truth lies hidden: the systemic exploitation of student-athletes.

In *Unsportsmanlike Conduct*, investigative journalist Jane Doe exposes the rampant corruption and abuse that plague college athletics. Drawing on interviews with current and former athletes, coaches, and administrators, Doe paints a chilling picture of an industry that prioritizes profit over the well-being of its most vulnerable participants.

Doe's book delves into the following key issues:

- The exploitation of student-athletes through unpaid labor and restrictive rules that limit their ability to earn a living
- The rampant academic fraud and pressure on athletes to maintain eligibility, even at the expense of their education
- The physical and mental health risks faced by athletes who are pushed to the limit by demanding coaches and training programs
- The lack of due process and accountability for coaches and administrators who abuse their power

Through meticulous research and compelling storytelling, Doe exposes the ways in which the NCAA and its member institutions have failed to protect student-athletes. She shines a light on the systemic racism, sexism, and classism that permeate college athletics, creating a culture of silence and complicity.

Unsportsmanlike Conduct is a wake-up call for everyone concerned about the future of college athletics. It is a call for comprehensive reform that will put the well-being of student-athletes first.
